No Cattle-Good Week For Hogs and Cattle.

The local hog market yesterday was Choted as steady, although there was hardly enough stock received to make a quotable market. It was a dull day and quotable market. It was a dull day and with orders, out all was attended up.

COMIC PAPERS AT HOME

Increase Their Circulation by Guying His Majesty.

Jerusalem, Oct. 29.-Emperor William and Empress Augusta Victoria with their suite, arrived in perfect health at the encumpment outside of the town today. At Il o'clock their majesties entered the Jaffa gate, and at 3 o'clock visited the Church of the Holy Sepulchre. The streets presented a lively appearance and the buildings were lavishly decorated.

(Copyright, 1998, by the Associated Press. Berlin, Oct. 28.-The official relations between Germany and Russia have been ru ed recently. This fact, although de nied by the government organs, was obtained from a person in high authority and one of the most striking proofs of the accuracy of the statement is that Count Muravieff, the Russian minister of foreign affairs, has just visited Paris and Vienna but ignored Berlin. The German newspapers remurked this and have commented upon the omission. Other significant facts are the almost outspoken hos tile tone of the entire Russian press. in which the rapproachment between Ger many and Great Britain is declared as ar inderhand plot against Russia which the latter is justfied in keenly resenting, in view of her friendliness to Germany in Moreover, Emperor William's visit to the Orient is characterized as an attempt to ndermine Russian influence in Turke and the polition of the orthodox church in Palestine. The Russian cierical authorities fear German Protestant rule in Jerusalem, where the Orthodox pilgrims are ten times more numerous than those of all the other creeds together. It is said Gibc; ducks, 6197c. that Russia, in order to counteract the Butter-Quiet; creamery, 14931c; dairy, Anglo-German agreement, has come to a closer understanding with Austria by which those two countries and France will jointly oppose the increased influence of Germany in the Orient and will in no many. The bulk of the German newspapers express the opinion that Emperor William's trip will yield little tangible good but will create much jealousy upon the part of the interested powers, who will endeavor to destroy and German prolects in Asia Minor. The German comic papers are also poking fun at the emperor and his new crusade, leading in cases to prosecutions on the charge of les majeste. The police confiscated the last number of Somplissimus owing to its publication of a poem entitled "In the Holy Land," congratulating Palestine on receiving such august visitors and suying that Golgotha will be able to boast not only hearing the most words from the Cross, but the first of Emperor William. There is no use talking—a baby in the house is the link that binds husband and wife together. Nothing is sadder than fruitless wedlock. The pratting and cooing of the little one offsets a thousand times the occasional worries and trials of life. When a wife is barren, there is a derangement somewhere in the genital organs, caused by one or more of those common disor-ders known as "female troubles". Wine of Cardui is the remedy. It puts the organs of generation in a strong and healthy condition, litting the wife for the sacred duty of reproducing her kind.
